### Keep The Kidneys Well

Health is Worth Saving, and Some Ell Paso People Know How to Save It.

Many El Paso people take their lives in their lands by neglecting the kldneys when they know these organs need help. Sick kidneys are responsible for a vast amount of suffering and ill health—the slightest delay is dangerous. Use Doan's Eldney Pills—a remedy that has cured thousands of kidney sufferers. Here is an El Paso tilizen's recommendation. kidney sufferers. Here is an El Paso citizen's recommendation.

H. A. Cooper, blacksmith, 609 Dverland St., El Paso, Texas, says: "At various times I have used Doan's Kidney Pills and they have always done good work. On account of my work, I frequently have trouble from my kidneys, causing my back to ache. Some years ago when I was having one of these spells I saw Doan's Kidney Pills advertised and got a box. In a short time their use cured me. Since then on various occasions I have taken Doan's Kidney Pills and they have always been very beneficial. I cannot recommend them too highly."

# NEEDS \$100,000

Secretary Fisher Declares Industry Is Neglected for Want of Funds.

Washington, D. C., June 28.—Secretary Fisher has submitted to congress an estimate of \$100,000 for the work of the bureau of mines in the states west of the Mississippi river during next year. The money is needed for inqui-ries and investigations into mining and treatment of ores, and for equipment, supplies, etc. Secretary Fisher declares that if the investigations he proposes are made there will be no foundation for the fear that private corporations will unload their troubles on the gov-

Fisher Talks.

In urging immediate action by congress, secretary Fisher says:

"With the increasing complexity of the conditions controlling the mining industry, and its growing importance as a basis of our national welfare, it is becoming not only wars appropriate. as a basis of our national welfare, it is becoming not only more appropriate, but more necessary that the general government, through its inquiries and investigations, all the miners in much the same way that it has with such generosity and success alded the farm-ers of the country. The failure of the general government to do this in the past is to be explained only by the fact that the conditions have not been ade-quately understood. quately understood.

"There are special reasons why the federal government should aid the mining industry in the public land states. The government is still the largest owner of mineral lands in those states. Even were these states sufficiently wealthy to grant appropriations without reserve there would be, if the work were all done by these states costly duplication in effort and expenditures as for the most part the

expenditures, as for the most part the problems are common to all of them. Industry Has Been Neglected.

No better illustration can be given of the extent to which the mining industry has been relatively neglected and the agricultural industries fostered dustry has been relatively neglected and the agricultural industries fostered in the general plans for industrial development than the fact that during the past 10 years not only has the federal government expended large sums from the public treasury in behalf of investigations looking to agricultural development, but it has expended in behalf of the reclamation of arid lands for farm purposes in the public land states the proceeds of the sale of all public lands (\$65,400,000), including even the proceeds of the sale of mineral lands, the latter aggregating nearly \$7,000,000. It would certainly have been reasonable and fair if during this period the proceeds of the sale of mineral lands in these states had been devoted to investigations looking to the upbuilding of the largeing mining industry there.

"Meanwhile, during this period, stimusaled by this ald from the federal government, the agricultural products of the public land states have increased from an average annual valuation of \$256,000,000 during the five years from

from an average annual valuation of \$366,000,000 during the five years from 1901 to 1905, to an average annual valuation of \$1.365,000,000 for the five years from 1800 to 1910. During similar periods the average annual valua-tion of the mineral products in the public land states (including the prepublic land states (including the pre-cious metals, copper, lead, zinc, coal and petroleum) increased from \$287,-600,000 during the first period to \$358,-00,000 during the second period; while in the production of the precious met-als there has been a decrease from an average annual valuation of \$136,600,-000 during the first period to an aver-age annual valuation of \$127,000,000 during the second period.

#### TWO NEW MINING COMPANIES FORMED

Santa Fe. N. M., June 26.—Incorpora-tion papers have been filed by the Mines and Metal company, of Socorro, with capitalization of \$120,000. The incorporators are J. L. Terry, John A. McDonald, W.\* R. Dobson, James Red-mond and Joseph Brown, of Kelly, and M. M. Dougherty, of Socorro, The com-H. M. Dougherty, of Socorro. The com-pany will operate at Kelly and Magda-lema, Socorro county. The directors are J. L. Terry, John A. McDonald and H.

M. Doughetty.

The Battleship Mining company, of Lordsburg, Grant county, with offices at Phoenix, also filed incorporation papers. The capitalisation is \$500,000.
The incorporators and directors are R.
M. Henningsen, Frank Oliver, Draw
Pruitt and E. Oliver, of Los Angeles,
and James T. O'Hara, of Lordsburg.

OIL FOUND IN

SAN PEDRO VALLEY Hayden, N. M., June 28.—Tom Wills, who has been drilling for oil near Mammoth, in the San Pedro valley, for Mammoth, in the San Pedro valley, for the past six months, last week struck some sand at a distance of about 600 feet, containing traces of oil. The sand gave off a small flame when a match was touched to it. Residents in this section are very enthusiastic over the find and trust that Mr. Wills will be well rewarded for his time and money well rewarded for his time and mor that he has expended on that work.

The Arizona-Texas Mining Co. of Yuma, Aria, is organized under the Arizona laws. The office at present is located in Galveston. Tex. We have 24 mineralized claims in the Castle Dome Range. We have gold quartz assaying 567 per ton in gold, heside 22 ounces of sliver, Our copper assays 641-10 percent and 27 ounces in sliver.

Our lead-sliver ore, of which we have already made a shipment to the El Paso smelter, run 64 percent lead and 40 ounces sliver. We are only a short distance from the North Star gold mine, and about 35 miles from the Fortuna mine.

We believe, Judging by the success others have made around us, that we will develop these claims into a big mine if we get the assistance we are compelled to ask for. If interested, send for our prospectus explaining our proposition more fully. Address ARIZONA-TEXAS MINNING CO., -120 Mechanic St. Galveston, Tex. Arizona-Texas Mining Co.

MINING NEWS

Coal Vein Has Been Opened Up-Activity in Gallinas District.

Holloway, N. M., June 26 .- The mining industry in Lincoln county, New Mexico, is quite active. The Cat, in White Oaks, is steadily developing and is preparing to build a mill for the treatment of its ores. Sufficient water has been developed, a pipe line is to be put in, and the construction of a large mill will speedily follow. The Cat pecple have also opened up a coal vein for the purpose of supplying the mill with fuel. The coal, like all the White Oaks coal, is of excellent quality.

Gallims District Active.
The Gallims district in the northern part of the county, is again active. ern part of the county, is again active. The incline on the Deadwood is being sunk to greater depth, the expectations being that it will get under the ore now being worked in the drifts. This property has been making shipments of high grade ore and the incline seems to be between two large ore seams, and it is believed that depth will impone or both. The Red Cloud is being prospected with the expectation of starting development work, Mining men have been looking over the Hickory, and the report is that a sale is probable. The Corona Queen people are settling the legal difficulties which have hampered the property for two or three years and it is only a matter of a short fime until work begins there.

Fuel and Iron Company May Invest.

short fime until work begins there.

Puel and Iron Company May Invest.

There is much activity in the iron districts of the Gallinas mountains.

Eastern iron men are looking the ground over and the representatives of the Colorado Fuel and Iron company are expected on the ground. The owners are preparing to do their assessment work early this year, and nearly all the work will be done with the idea of showing tonnage. The Iron is pronounced the very best and the only thing to do is expose the quantity. It is reported that one eastern outfit offered an owner \$250,000 for his property if he would go ahead and show he has anything over 400,000 tons of the ore now showing.

New Concentrators and Crane Put In.

Douglas, Ariz. June 26.—Preparing to the advantage of the continued rise in copper price, the Greene Cananea company is making extensive improvements in its reduction works at Cananea, according to Dr. L. D. Ricketts, who was here. When the improvements are completed they will have increased the capacity of the plant so that, working full blast, it will be capable of making 10.000,000 pounds of copper monthly.

"I hope the price of copper will not go any higher than it is at present, but I see no reason why it should not remain at its present level indefinitely,"

I see no reason why it should not remain at its present level indefinitely," said Dr. Ricketts. "The demand is great and apparently the copper properties are not turning out the metal rapidly enough to satisfy the consumers. I consider the situation, as a whole very healthy." whole very healthy

whole, very healthy."

Two New Converters.

The chief betterment underway now at the Greene-Cananea smelter is the instalation of two Great Falls type converters. To serve these the blowing capacity of the plant is also being increased. A new 60 ton electric crane has been purchased to serve the converter bed, being rendered necessary by the changes in the converter plant.

The company is at present turning out about 5,900,000 pounds of copper, both its own and the Miami company ores being handled. With the increased capacity between 4,000,000 and 5,000,000 pounds of copper from Cananea ore and about 2,000,000 from Miami will probably be turned out. The plant will have capacity of 10,000,000. If pushed to its limit.

To meet the increase in output ton-

To meet the increase in output ton-nage from the company properties at Cananea is being largely increased. Dr. Ricketts stated that he could say nothing with regard to whether inde-pendent properties of the Cananea district are stiempting to take advantage of the high market. "I'wo or three are showing signs of approaching activity," he added conservatively,

COURTLAND MINES

SHIPPING MUCH ORE Douglas, Ariz., June 26,-While other districts are enjoying prosperity on ac-count of the copper boom, Courtland is nat dropping back in the race, accord-ing to recent arrivals from there. The ing to recent arrivals from there. The leader in mining operations in that district is the Great Western Mining company. This property shipped 102 cars of 50 tons each to the Copper Queen smelter in Douglas, during the month of May. The tonnage is expected to far outstrip that figure in the present month.

present month.

The Great Western is now employing a ferce of about 90 men in all and is working but one shift. There are numerous rumors to the effect that the company will soon put on another shift but this is not confirmed.

#### PHILADELPHIA MINE IN GOOD ORE BODY

Silver City, N. M., June 26.—The United States Copper company is still busy working the Philadelphia copper mine near Hanover and is taking out large quantities of high grade ore and indications are that the property is to be a high graying proposition. be a big paying proposition.

It is reported that a number of the Phelps-Dodge officials, with several of the big Santa Fe officials, were in the Burro's this week, but the object of their visit was not given out. As usual, however, when such visits are made, Madam Burro's representation of the proposed to week and the proposed to be a proposed to the proposed to be proposed to Madam Rumor proceeded to work over-time and set affort various reports about opening up the Chemung and copold mines soon, and the certainty of early construction work on a rail road from the Burro's to Deming. Th

# OPTIONS OFF ON

Hold of Guggenheims Is Relinguished-Would Have Cost Them \$625,000.

Globe, Ariz, June 26 .- The Guggen-

neims have relinquished their option on the Needles group of 27 claims, and the socalled independent group of 13 claims, situated three miles west of Miami and adjoining the claims of the Southwestern Mismi and the South Live Daks Development companies.

These claims contain a considerable area of mineralized schist that are believed to hold possibilities for the development of a body of low grade copper ore similar to the Mismi and inspiration deposits. The option called for total payments of \$625,000. The ground was examined by five of their engineers at various times and orders had been placed for machinery and supplies for churn drilling, but it was finally decided not to explore the property.

Progress In Copper Reef,
At the Copper Reef mine, II miles
south of San Carlos, good progress is
being made in driving the California
tunnel, and the drift on the California
tunnel, and the drift is reported to be
breasted in very favorable looking vein
matter. The pump has been installed
at the new well recently sunk and is
furnishing sufficient water for the
mine and camp. M. J. Kennedy, of
Pritsburg, president of the company, is
making a visit of inspection to the
property.

making a visit of inspection to the property.

Work to Start on Gold Needle.

Bill Sparks and Frank Thompson have acquired title to the old Gold Needle mine, about a mile northeast of the Black Warrier mine, and will start work in a few days. The mine produced gold ore about 20 years ago and is opened by a shaft and a 200 foot tunnel, from which two winzes have been sunk. It is reported that a considerable amount of ore was mined from the oxidized zone and amalgamated, and that the mine was abandoned when base ore was reached. The workings are badly caved and it is the intention of the new owners to clean out the tunnel and explore the property.

Reduction Plant Enlarged, Promotorio Mine to Resume Shortly, Say Hyder in Douglas.

> Douglas, Ariz., June 26 .- The work which has been done on the North Tigre during the past three months has resulted in the opening up of a fine body of high grade ore, according to Richard P. Brown, president of the North Tigre Mining company, who has reached Douglas from the mine.
>
> After running a crosscut tunnel 540 feet, the continuation of the main ledge of the El Tigre was encountered and drifting on the vein immediately began. This driving is now being pushed forward as rapidly as possible in both directions, both faces being in ore. Assays have not been made as yet, but Mr. Brown is more than satisfied with the showing now made, feeling confident that the two drifts will open up a good sized ore body. resulted in the opening up of a fine

up a good sized ore body.

The only difficulty encountered has been with bad air in the breast of the tunnels. Heavy rains in the district have been the cause to a certain extent, but with the installing of a blower this trouble will be overcome.

F. B. Hyder, who passed through this city on his way to El Pase from Moctesuma, says that the Promotorio mine, near the latter point, is soon to he worked by the Moclesuma Copper company, who acquired the property on a mortgage. This is one of the large copper propositions of the district and already has a smelter on property, which was installed some years ago, but never blown in but never blown in.

#### SHUTDOWN MAY BE BUT TEMPORARY ONE

Hamburg People Think the Hartford-Arizona Will Resume Soon.

Hamburg, Ariz, June 26 .- Following the announcement of arrangements or great improvements at the Hartfor great improvements at the Hartford-Arizona came the sudden announcement that the property had
closed down and was 40 days back in
salaries to its men. It is believed,
however, that the property will soon
be running again, as arrangements to
further finance the property are reported to have been made by president
Henry Hamburg, who is now in Chicago, Mr. Hamburg has been developing different properties in Huachuca cage. Mr. Hamburg has been develop-ing different properties in Huachuca mountains for over 20 years and now that he is about to bring in a big mine it is thought by many people who have observed him in the past, that he will not let fate stop him from reaching his

A great deal of work is being done in this (Ramsey) canyon by various prospectors, the canyon is full of campers and things are lively. It is rumored that the Butte and Arisona people will soon arrive to look into the advisability of opening their property. The high price of copper is making things look up all around here.

#### CUMPAS DISTRICT IS AGAIN ACTIVE

Prospectors Return and Several Mines Resume

Work.

Cumpas, Mexico, June 26.—Prospectors are beginning tto come back into the Sonora mine country. The Minneapolis Copper company has started to work on its famous Archipelago mine 25 miles west of Cumpas. It is shipping 50 tons of high grade ore a week to the Copper Queen smelter in Douglas, they have 5,000 to 7,000 tons of ore on the dump and have more than 50,000 tons in sight in the mine of 10 to 15 percent copper. The company will build a 60 ton smelter on the mine, it is announced. The Ormos mine is working a few men taking out some very high grade ore. The Washington and the St. Lorenso mines are both working, taking some fine ore out. The Transval Copper company is working about 15 men developing its mine. They are showing up some fine bodies of ore and all they need is the railroad into Cumpas, to start up smelting.

The Chispan mine is still shut down. The owners expect to start up just as soon as the rainy season is over. Work. The owners expect to start up just as soon as the rainy season is over.

The Guerigito mine, north of Cumpas, is making regular shipments of builton and high grade ore.

On the Spoiled-Man Age

"We are two young girls, fairly good looking, and of refined amily and manner.

"After young gentlemen call once or twice they keep away from us, or when they promise to write, they never

"We act very pleasantly and polite to them. Why do they act so, and how

can we remedy it?"

My dear girl, you are unfortunately living in the Spoiled-Man age, and are a victim of that period.

Several generations ago Man put

Several generations ago Man put Woman on a pedestal and humbly kneit before it.

Now he has put himself there, and many women, I blush to say, are kneeling before him.

There comes a time when he is older, or married, that he tumbles off with a crash, but in his pin-feather days he is securely and comfortably enscenced there, and girls also of the pin-feather age, do him homage. ge, do him homage,

You are making the mistake made by many girls of your day and genera-tion. You are making an effort to win the attention of this little pin feath-You act "very pleasant and polite" to

him: you could win his attention quick-er if you were totally indifferent. His smiles and his frowns have weight with you and he sees it. As a result he gives you the frowns, and bestows the smiles on some girl who Over Your Hend-He is looking over your head at the girl who is not looking at him.

He notes your anxiety to please him.

Therefore, he decides that he can let his attention stray from you and come back and give you the pleasure of his company at any time it splits him.

He is spolled, badly spolled. Time will remedy all of that, but in the interim the days are dull for the girl subjects.

who would like a good boy friend.

She can't reform all young men. The
task is too atupendous. But she can
reform those she knows by being indifferent.
She

She can be indifferent at all times. he can snow him that her good times re not dependent on his whim or his

pleasure.

She can find to her own benefit that there are gay times with her father, her mother, and brothers and sisters, and her girl friends.

She can be so happy excluding him, that he will get on his pedestal and attempt to break in.

Perched un there, he takes no inter-

Perched up there, he takes no interest in the girl who tries to attract his attention. But he is interested in the girl who laughs and is happy, and con-

girl who laughs and is happy, and content, and who doesn't show that she knows of his existence.

He wants her to know that he is a royal personage, and he climbs down to meet her. If she is indifferent to his claims of royalty and cares not that he belongs by all right of manworship on a pedestal, he will become so interested in her he will never climb up again.

If there is any one word I would urge my girls to remember when a man comes a-wooing, or when the man they admire falls to come, it is this Indifference.

A Real Crowbar. It is the one word in the English language that shakes a man loose from his self-assurance and conceit.

It arouses his interest, provokes his pride, and makes him resolve to com-

pride, and makes him resolve to com-pel the girl who shows it to take an interest in him.

Having awakened him to the know-ledge that he is not a king, it re-mains with the girl to continue his

If she continues indifferent, there permeates into his brain the belief that she is a queen, and the knowledge that he will be honored above many if permitted to become one of her humble

I dare not think of writing & writers, and Ps. since they threw my last play n the discard, but this is one thing that I dare think of, I venture to assert, Ps sed, without feer of successful ontradickshun. I venture to say that doant care to meet any author-esses any painter-esses or any other kind

The last two poetesses we had to dinner, sed Pa, was all the time talking about violets & triolets & eating stake, Pa sed. I never seen anybody with such a thoro knolegge of triolets & violets, Pa sed, that cud set so much stake All we had was a porterhous & two tenderlines, Pa sed to Ma, & if you remember the stake of the second the fodder. I down mean that I bec-grudge them that fodder, sed Pa, I only mean that the literary life seems to make big enters. Wen this lady couns, I guess I will have to do z littel

All rite, sed Pa, all rite. In any event, sed Pa, I shud like to hear the story of your past. That goes, toe, You shall do nothing of the sort, sed sed Pa.

Ma. You call it "kidding," sed Ma, but That does NOT go, sed Ma. Nothing I and all the girls call it just plain fool-that Pa says goes at our house.

My naim is not Felicia, sed the lady.

RAY, ARIZONA, TO HAVE WATERWORKS Trade Made With Mining Company Whereby Lat-

ter Will Lay Mains. Ray, Ariz, June 26.-An agreement between property owners in Ray and the Consolidated Copper company has been practically closed, whereby those who expect to rebuild will erect sub-

stantial structures, with fire insurance restrictions, and, in return for this the company will lay water mains and instal a sewerage system.

This will not only obviate the probability of a repetition of last week's disaster, but will create a better, healthier and more beautiful town than the one that was so quickly destroyed. healthier and more besulfful town than
the one that was so quickly destroyed.
With the exception of 11 lots, the entire townsite is owned by the company.
The widespread rumor that the bushness section would be mored to the
Aziec hotel section, which is owned by
the Arizona Hercules Copper company,
is absolutely without foundation,
though the hotel may be rushed to completion.

Hennis, Griffen & Leonard, the Ray Meat market, W. H. Clark, clothier; Mrs. Archibald, milliner; the Pullman,

Mest market, W. H. Clark, clothier; Mrs. Archibald, milliner; the Pullman, Adobe and Stag saloons and two barber shops have already resumed in temporary quarters. Two restaurants have also opened.

There was \$58,500 insurance, distributed as follows: The Hub, \$19,500; Hennias, Giffen & Leonard, \$2,000; Hennias, Giffen & Leonard, \$2,000; Ray Mercantile company, \$8,300; Karanaugh block, \$8,000; Geo. R. Brown, \$1,000; the Pullman, \$1,000; Ira E. Brown, Brown, \$2,000; Arizona Hercules Copper company, \$3,000; T. R. Wiggins, \$2,000; Tribolet building, \$1,500; M. Kalll, \$1,000; Central pharmacy, \$1,000; T. T. Scott \$500; Gila Valley bank, \$500; Bates building, \$250.

Henniss, Giffen & Leonard are preparing to erect a three story building of concrete blocks, the lower floor to be utilized for store purposes and the upper floors to be made into a hotel. Just at this time there is no accommodation for translents, though ery little inconvenience has been experienced by

residents, as no dwelling houses were burned and few people lived in the holefs.

E. F. Lanten, proprietor of the Ray mest market, has been called to Flor-

meat market, has been called to Florence to answer a charge of killing cattle without having them inspected. If
be had to submit to state inspection
whenever he butchers it would mean
that he would have to buy all his meat
dressed, since there is no one here to
make inspection.

Colin Bury, of the Donofrio-Bury
company, is here from Phoenix.

The Mexican whose negligence
caused the death of a fellow countryman by leaving a blast for him to run
into, has skipped out, and officers are
unable to locate him. The Mexican
miners were very much worked up over
it, and he was threatened by friends
of the dead man.

#### BLUE LODGE MASONS INSTAL NEW OFFICERS

Masons met Monday evening in the Masonic temple to Instal the officers of the blue lodge a T. C. Lea. deputy district grand master, acted as the installing officer and J. D. Mason, past master, as the marshal, W. W. Evans, the newly installed worshipful master made an eloquent address and the ritualistic instalation was very impressive. More than 150 members of the lodge attended.

The new officers who were installed, together with the appointive officers and the standing committees are: W. W. Evans. worshipful master: V. E. Ware, senior warden; W. W. Click, junior warden; E. W. Kayser, treasurer; L. E. Gillett, secretary; A. O. Wynn, senior deacon; J. Temple Rice, junior deacon; William Crawford, senior steward; Sol I. Berg, junior steward; W. S. Huggett, chaptain; John Hughes, tiler; V. R. Stiles, marshal; entertainment committee, E. D. Strong, M. H. Mac-Callum, Sol I. Berg, W. R. Taylor, C. R. Trowbridge; library, Grant Martin, Martin Zielonks, W. S. Hugsett, J. Temple Rice, Crawford Harvie; electrician, C. C. Nordholm.

The royal chapter will instal officers The royal chapter will instal officers Thursday night.

## S.S. PURELY PURELY

The absolute vegetable purity of S. S. S. has always been one of the strongest points in its favor, and is one of the principal reasons why it is the most widely known and universally used of all blood medicines. A great many of the so-called blood purifiers are really nothing more than strong mineral mixtures which act so unpleasantly and disastrously on the delicate membranes and tissues of the stomach and bowels, that even if such treatment purified the blood, the condition in which the digestive system is left would often be more damaging to the health than the original trouble. Not so with S. S. S.—it is the greatest of all blood purifiers, and at the same time is an absolutely safe and harmless remedy. It is made entirely of the healing and cleansing extracts and juices of roots, herbs and barks, each of which is in daily use in some form by physicians in their practice. Years of work and research have proven S. S. S. to contain everything necessary to purify the blood and at the same time supply the system with the purest and best tonic effects. S. S. S. cures Rheumatism, Catarrh, Sores and Ulcers, Skin Diseases, Scrofula, Contagious Blood Poison and all other blood troubles, and it leaves the system in perfect condition when it has purified the blood. Book containing much valuable information on the blood and any medical advice desired sent free to all who write. THE SWIFT SPECIFIC CO., ATLANTA, GA.

A sphere is supnthing round, sed Ma's indy frend. Round & dee-void of angles, & bilt as round as a appel.

I see, sed Pa, you mean round like a Swede's hed. Go on & tell us moar, Felicia. Pa sed.

My name is a sphere. tality, the crowning glory of mature healthy manhood. Do you know, read-er, what this means If by these few sim with profit be the means other other men the straight and sure, if narrow, road to new manhood, new powers, new capacities for a better and more glorious physical and vital development, then in doing this I have rendered a great and insting service to my fellow beings, and one which is infinite in its power for good.

This self-same VITAL-1TY, this builder of manhood and maniy, vigor, may easily be regained, and I will tell you how.

Have you ever stopped to consider that it is this VITAL FORCE which makes rugged men the real men that they are? It is this same MAN FORCE which is behind every great achievement in the world to-

great achievement in the world to-day, which gives the flower of our army and navy the courage to meet and face death unflinchingly, which and face death untilineningly, which gives the rough and rugged man of the plains that compelling power to rescue at all odds a loved one from some great peril, as our illustration here portrays, and it is this self-same, identical VITAL VIGOR which I must impart to you, reader, if you are not the man you should be.

Therefore, if I give you new vi-

But any man who is willing to make a fair, square fight for the return of his lost vitality and lost manhood, who will promise faithfully and honestly to discontinue any debasing practices or excesses he may be indulging, who will help me thus by helping himself to such no matter how dependent he may he, no matter how weak and debilitated, no matter what years of folly have passed, to such a man I can offer all the encouragement in the world. Just lead a decent man's life, my friend, and then increase your VITALITY. All else will come. I make and distribute a vitalising I make and distribute a vitalising appliance which I call a HEALTH BELLT. I do not want you to get one of these HEALTH BELTS now Therefore, if I give you new vitality, I make you young again and keep you feeling young the balance of your days. By increasing your vital supply, I soon have you answering "Simply feeling fine," to your friends' morning greetings, while they in their turn will secretly marvel at the wondrous change for the better which has come over you. A thoroughly vital manly man is the greatest inspiration in the world, his power and fascination are felt by all women and all men alike who are near him. Nothing but death can conquer the giunt of strength and manly vigor. On the other hand, how different with the half-man, how are near him. Nothing but death can conquer the giunt of strength and manly vigor. On the other hand, how different with the half-man, how him the world, his power and the world half-man, how him the half-man, how him the world half-man, ho
